products and services for human beings

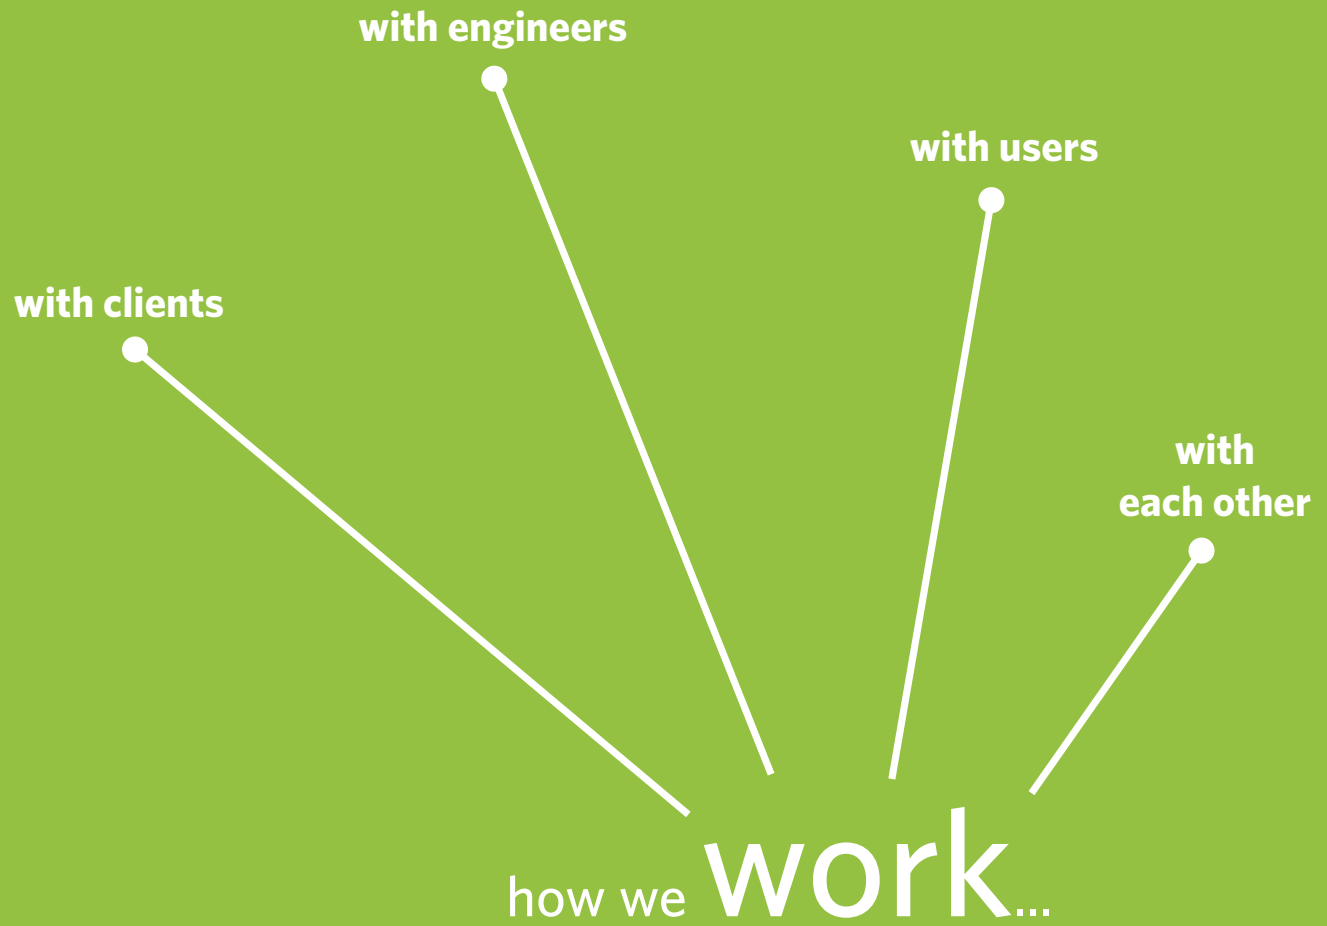

diversity

accessibility
adaptive interfaces & products
collaboration techniques
design communication
effective user research
interaction design in everyday life
mobile
multi-channel design
participatory design
rich internet applications
semantic search
social design
storytelling

*In the beginner's mind there are many possibilities.
In the expert's mind there are few.*

Shunryu Suzuki

reconsider...

which
tools & methods we use...

to collaborate

to learn about users

to document

to implement

to communicate

to prototype

how we

support our users' experiences

cognitively

emotionally

physically

socially

culturally

reconsider everything

and now...
